

KIWANIS

Children's Safety Village

Tell me and I'll forget ...

Kiwanis Children's Safety Village

Lesson Plan Overviews

Orillia Power & Hydro One

- Grade 2's are taught the basics of electricity (Hazard Hamlet is used to demonstrate the dangers with electricity)
- Grade 2's and 6's are shown a 15 minute video followed by a discussion on where electricity comes from and how it works.
- Discuss the dangers with electricity outside and inside the home.
- Discuss the dangers associated with water and electricity
- Focus on the hazards associated with overhead and underground wires, followed by a hands on demonstration of safety gear
- Finish with a question and answer period.
- Grades 6's get a more advanced discussion of the same topics. More emphasis on calling before you dig and step potential (wires on the ground).

Involve me and I will understand!
